

NORTH CAROLINA SHELL CLUB

1963

DA Wolfe

MESSAGE FROM THE N. C. SHELL CLUB PRESIDENT - Mr. Carl C. Withrow

Greetings and salutations to all members of the North Carolina Shell Club. It is realized that many of you just can't get to everything because of the time and distance involved; but we hope you will try to make every one.

We want each and every meeting to be of increasing interest to everyone; and welcome suggestions from all on how our programs may be improved; that is, within the limits of our small budget, which our dues, purposely kept at a nominal figure, will always limit. It should also be realized that just planning and setting up the mechanics of a good meeting takes time and effort, and usually some traveling to the point where the meeting is to be held. But with these limitations, we can still use new ideas for interesting and worthwhile programs.

Good speakers when available without heavy transportation expense, are always good for the program. It is felt that films and slides should be reserved for inland meetings, rather than field trips.

Members should give some thought to the location of future meetings, especially for the coming inland meetings. When facilities are available, and we are invited, or at least welcome, your President favors holding meetings in various cities around the state, with the exception of the western section, where we have few members and where distance would be a burden on eastern members. Please give these questions some thought, and don't hesitate to suggest anything you consider worthwhile, at any meeting.

We'll be looking for you at all future meetings. Good shelling!

WHAT SHELL COLLECTING HAS MEANT TO ME
Rev. G. S. Turner - Past-president N. C. Shell Club

Somewhere about twenty years ago, I picked up some pretty shells on the beach at Fort Myers, Florida. On showing them to a friend he mentioned their names. "Do shells have a name?" I asked in my ignorance. On that day was born a hobby that has led me to renew a latent interest in natural history, to purchase books that fill a shelf in my library and to accumulate a collection of shells from every corner of the earth.

What has shell collecting done for me? It has given me a healthy outdoor interest and increased my appreciation of beauty and the wonders of God's creation. It has brought me the warm friendship of hundreds of people I would not otherwise have known, including college professors, scientists, teachers and workers on various boats. It has given me the opportunity to interest hundreds of students in college and public schools in the wonders of seashore life.

Perhaps the best thing shell collecting has done for me is that a walk along a beach is now a meeting with familiar friends - that fellow (shell) is the one that has red blood, that one has been pierced by a moon shell and so on.

"TO A PRECIOUS WENTLETRAP"
(Epitonium (Scalaria) pretiosa)

If, by some tyrannical decree,
Were banished from the scene of earth and sea and sky
All things of beauty save one,
And were it mine the choice of which to stay,
Then choose I would from Triton's store
A treasure rare, -
A simple thing whose spiral grace
Bespeaks perfection;
Whose alabaster gentleness
Compells the hand to trace its form
And, having traced,
Drew back in wonderment.

If this my choice be wrong, Scalaria,
Then know I not why I am moved to tears at thy sheer loveliness.

Mrs. Charlotte G. Johnson
Past-president - N. C. Shell Club

CONSTITUTION OF THE NORTH CAROLINA SHELL CLUB
Revised October 21, 1961

This club shall be called the North Carolina Shell Club.

Membership shall be open to any persons interested in the collection of shells or the study of Malacology. New members may be received by the consent of the club at any regular meeting. Annual dues for Adult Members shall be \$1.00, for Junior Members \$0.50. Junior membership shall include all individuals of grade school age or younger. Those members three or more years behind in their dues shall have their membership terminated after due notice.

The following officers shall be elected annually, by ballot on the first meeting of the year: President, Vice-president, Secretary-treasurer.

An executive committee shall consist of the above officers, the retiring president, and one member who shall be elected annually. It shall be the duty of the executive committee to arrange programs for the meetings and supervise the affairs of the club.

The constitution may be altered by a majority vote of the total membership at any regular meeting, but written notice shall be given for any proposed change.

HISTORY OF THE NORTH CAROLINA SHELL CLUB

"Last Saturday week, in the Board Room of the North Carolina State Museum, a new hobby club came into being" so wrote Charlotte Hilton Green in the Raleigh "News and Observer" column "Out of Doors in North Carolina" March 17, 1957. This was the first public announcement of the North Carolina Shell Club.

Mr. Harry Davis (Director of the North Carolina State Museum) wrote that for a number of years there had been an interest by shell collectors in enlarging the mollusk exhibits at the Museum. After enquiries and suggestions were made in 1956 by Rev. Scott Turner of Buies Creek and Dr. Max Rogers of High Point, Dr. Davis, having had much previous experience with the North Carolina Bird Club, suggested to Rev. Turner and to Dr. Rogers that the time may be right to form an organization of shell collectors. They agreed to do so and sent letters announcing an organizational meeting to known interested persons, museums, and Biology Departments of many North Carolina colleges. The first meeting was held March 9th, 1957 at 2:30 P. M. in the North Carolina State Museum in Raleigh. During this meeting, the reasons for such an organization were discussed, a name was decided upon, a simple constitution was formulated, and officers were elected. The following persons were in attendance: Miss Lila Bell, Raleigh; Mrs. Graham Bell, Fayetteville; Dr. M. R. Carriker, Chapel Hill; Miss Mary Rose Cooper, Fayetteville; Mr. Harry T. Davis, Raleigh; Mrs. Charlotte Hilton Green, Raleigh; Dr. Istvan Ferenezi, Raleigh; Dr. Charlotte Dawley, Greensboro; Mr. and Mrs. J. M. King, Holdens Beach; Mr. F. B. Meacham, Raleigh; Mr. Jimmy Moore, Cary; Mr. and Mrs. Hugh J. Porter, Morehead City; Mrs. G. T. Proffitt, Lillington; Dr. Max Rogers, High Point; Rev. and Mrs. G. Scott Turner, Buies Creek; Mr. James E. Wadsworth, Chapel Hill; the late Prof. E. M. Walker, Buies Creek; Dr. and Mrs. Seth Walton, Raleigh; the late Mr. Herman Weil, Goldsboro; Mrs. Bill Wilkenson, Raleigh; and Mr. and Mrs. Edward Wooten, Winston-Salem.

Since then the club has usually met four times a year. About half of the meetings have been weekend field trip type meetings, consisting of a Friday night social, a Saturday business meeting, and a Saturday organized field trip. Members have frequently stayed in an area till Sunday for additional collecting opportunities. Field trips have been held on Baldhead Island, Kure Beach, Lumbar River (for fissils), Nags Head, New Topsail Beach, Shackleford Banks, and Yaupon Beach. Inland meetings have been primarily Saturday afternoon affairs.

During the past year and a half, weekend meetings were held in Holdens Beach, the University of North Carolina's Institute of Fisheries Research in Morehead City, and in Southport. The Holdens Beach meeting was with members from South Carolina's "Grand Strand Shell Club" and besides the usual beach collecting included collecting in a few nearby South Carolina fossil pits. At Morehead City, the club chartered two shrimp boats for a collecting trip to Cape Lookout. In spite of rough seas, few of the 60+ on the trip got sea sick. The Southport meeting also had members of the "Grand Strand Shell Club" invited. Approximately 50 persons made the trip over to Baldhead Island.

Since its beginning, the programs of the club have been quite varied and have been dependent upon wishes of the club members. Programs have included talks on life-history studies of certain mollusks by well-known biologists, talks on collecting trips made to various parts of this country or world, talks on land snail and fossil collecting. This past year programs have included a book review by Misses Elizabeth Grady and Elizabeth Mathews; the following movies: "Molluska", "Mysteries of the Deep", "Coral Wonderland", and "Shellfishing in the Chesapeake"; shell exhibits; and a talk by Dr. R. L. Menzies on Duke University's new oceanographic program and on his research on Neopilina. Dr. Ferguson has continued his systematic workshops (illustrated to a great extent by specimens from his own fine collection) and has during the past year discussed the following groups: Pectinacea, Neritacea, Cocculmacea, Pteriacea, Isognomonidae, Pinnacea, Anomiacea, Ostreacea, Chelophoracea, Viviporacea, Littorinacea, Rissociacea, Ceritheacea, Trigoniacea, Unionacea, Sphaeriacea, Epitoniacea, and Eulimacea. Those winning a door prize during the past year were: Mrs. Mary Lou Horton, Miss Elizabeth Mathews and Mr. J. H. Juneycutt. Following programs, socializing, buying, and/or trading of shells took place.

1963 FINANCIAL STATEMENT OF THE N. C. SHELL CLUB
